WHO WE ARE

Metallic Equipment Holding (ME Holding) was founded in Abu Dhabi, the capital of the United Arab Emirates. We are a company that values innovative ideas and high-quality products made only with exceptional materials. Overtime we have expanded our product line and refined our processes to supply a wide range of commercial and residential properties with architectural hardware and security systems. All this while offering outstanding service, exceptional style concepts and a sense of safety for your home or corporate environment. ME Holding employs over 600 people in the United Arab Emirates and abroad.

We have developed key strategic partnerships with suppliers all over the world. We are positioned for continued growth, always with an emphasis on quality and customer service. We are dedicated to finding new technologies and processes to constantly improve our products and services.

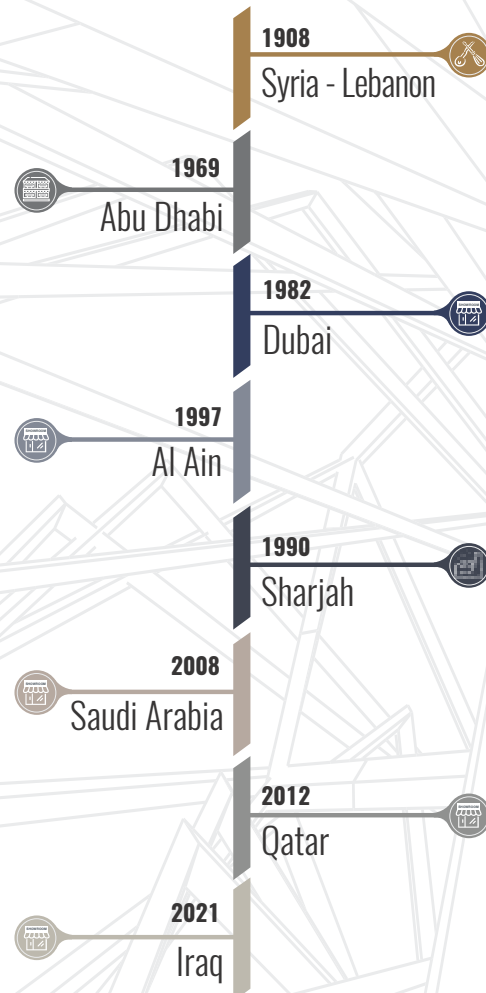

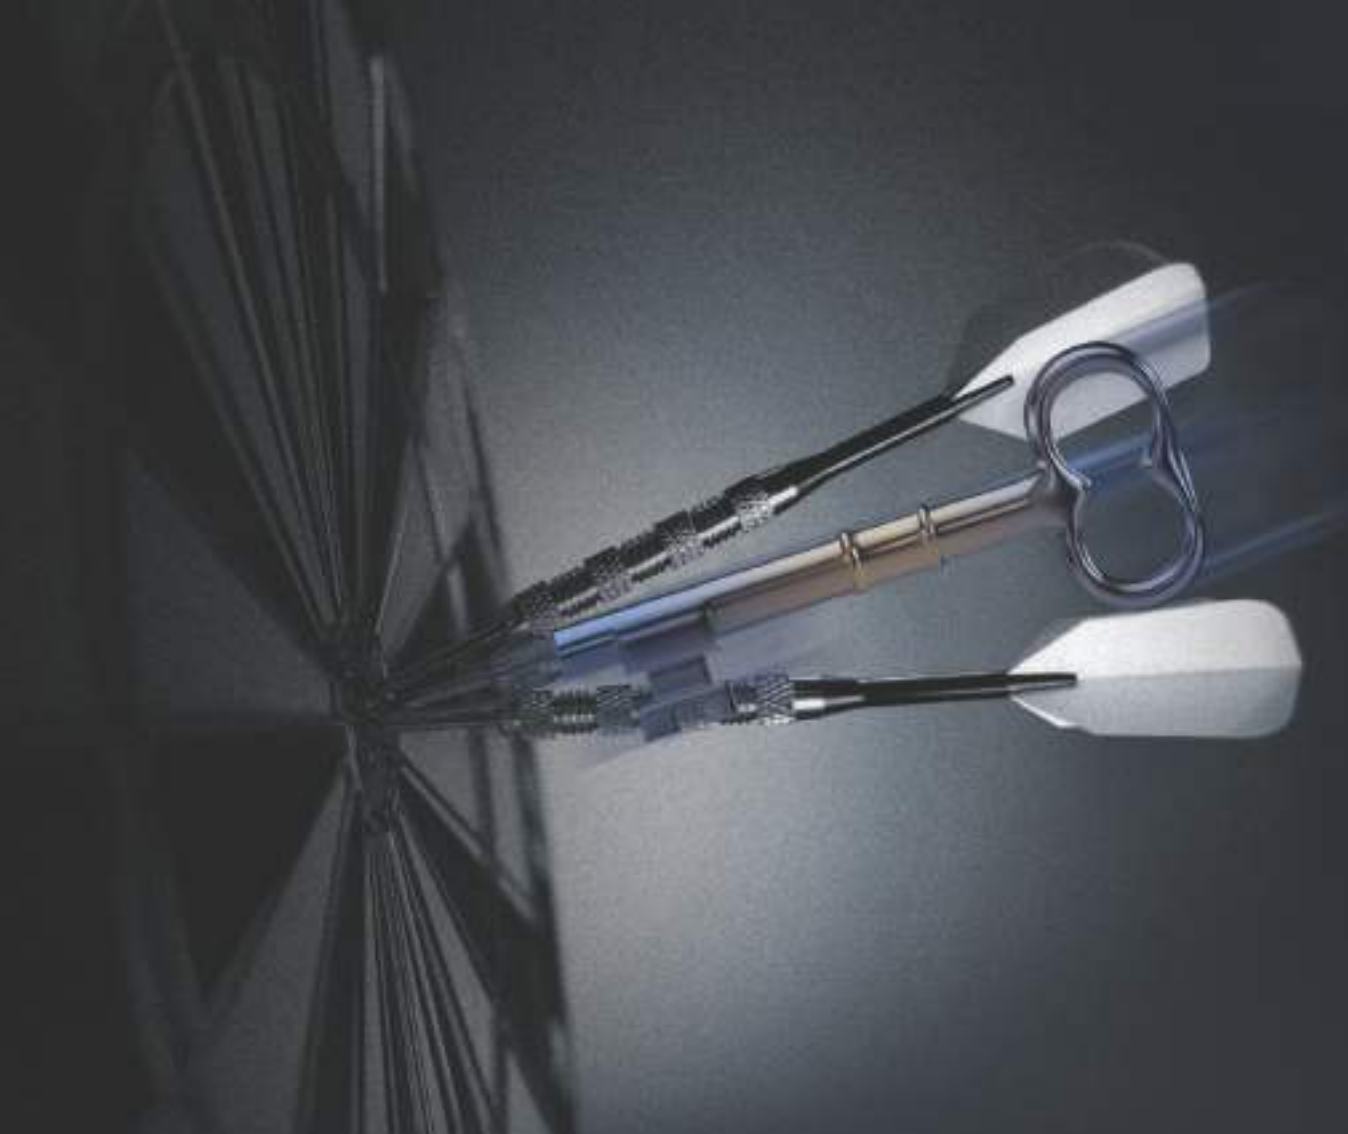

OUR HISTORY

In tandem with the UAE's rapid growth, ME Holding shaped the tool trading market in Abu Dhabi since 1969.

In the later years, ME Holding has diversified its product lines into Architectural Ironmongery, Safety & Interior Accessories, as a value-added to the company's portfolio, meeting their customers full spectrum of needs.

HISTORY TIMELINE

OUR MISSION

To provide our clients with superior quality works that will satisfy their needs and exceed their expectations.

OUR VISION

To become the forerunner in the field of Architectural Metal & Woodworks.

OUR OBJECTIVE

To Provide our client with a professional service along with the philosophy that “Your Vision is Our Mission”.

MANUFACTURING

MANUFACTURING

ME Holding manufacturing plant in Sharjah is an ISO 9001:2008 Certified Company. A prequalified and allied Subcontractor that supplies as well as fabricates and installs a vast range of high quality metalwork items and specialized works enumerated.

MANUFACTURING

STAINLESS STEEL

In Stainless steel works, Metallic Equipment is known as the best and most vastly experience manufacturing company in the UAE , assisting our customer's demands in architectural, industrial, interior design, hotels, malls, residential and lots more. We combine professionalism, experience, dedication and passion to manufacture your requirements for the most demanding specifications.

BRASS & BRONZE

Brass is a substitutional alloy. It is used for decoration for its bright gold-like appearance; for applications where low friction is required such as locks, gears, bearings, doorknobs, ammunition, and valves.

METAL CASTING

Metallic Equipment's Metal casting requires specialized equipment, knowledge, and creativity, which is their Facility and Professionally Skilled Workers in the field. Metallic Equipment specialize in metal casting for Brackets, Interior – Fitouts, Period/ Ornamental Motifs, Accessories and a lot more using Brass, Bronze and Aluminium in varied finishes.

METAL FINISHING

The plating section is broadly classified into two sections i.e. precious plating and non precious plating. The process has three divisions - polishing, pre-treatment and post-treatment.

WOODEN JOINERY

Metallic Equipment has Wooden Joinery Section that has all sources to execute wooden / furniture works such as designers, cad operators, experienced foremen, skilled laborers and modern machineries.

WOODEN DOORS

The best raw materials, exclusive models, the competence and talent of skilled craftsmen and the use of the most advanced technologies characterize ME wooden doors, all of high quality and with an original and identifying design, from classical to modern sophisticated style.

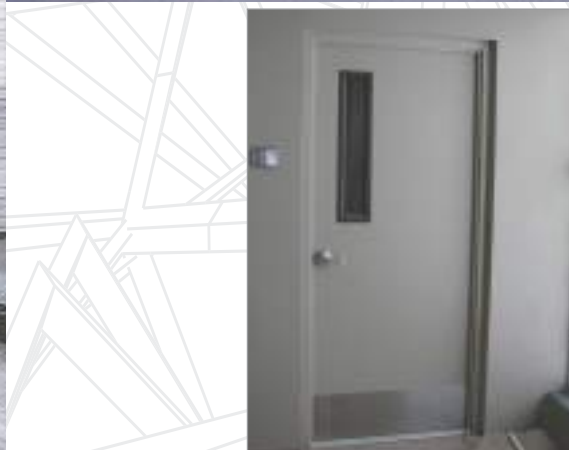

DECORATIVE DOORS

Splendid looking decorative doors exhibits Metallic Equipment's prowess in meticulously fabricated products.

METAL DOORS

Not only wood works but also metalworks is Metallic Equipment's forte from concept to product, we vow to provide our customers with complete satisfaction.

HOSPITALITY

In the diverse hospitality security industry, different segments demand unique solutions. ME Holding's innovative line of electronic hotel locks and systems addresses requirements of each lodging market segment and have the ability to serve each market niche—including the top-end luxury, upper upscale and limited-service segments.

SAFFIRE LX

Saffire LX features sophisticated RFID technology in a contemporary, understated design. Its high performance represents a secure, flexible solution bringing online capabilities and convenience to satisfy the technology needs of hotel properties, while optimizing the guest experience.

MOBILE ACCESS SOLUTIONS

Convenient, reliable and secure for both the hotel property and guests, dormakaba's Mobile Access Solutions are a secure, end-to-end mobile credential application utilizing Bluetooth Low Energy (BLE), the preferred communication technology for dormakaba mobile enabled RFID hotel locks.

LODGING SYSTEMS

In the diverse hospitality security industry, different segments demand unique solutions. ME Group's innovative line of electronic hotel locks and systems addresses requirements of each lodging market segment and have the ability to serve each market niche—including the top-end luxury, upper upscale and limited-service segments.

Ambiance is dormakaba's next-generation software solution. Web-based and managed through configurable user permissions and secured system access, Ambiance users can manage guests either through the native client or interfaced through your property management system (PMS). Property configuration, key creation and user management are simpler than ever because of the software's guided workflows.
